[ADMIN] ~~VideoGameSmash12~~ (Console) Motherfucking chit!!
I was just masturbating and everything was going great! I was
in my room, I had my headphones on, I was totally naked sitting
at my computer fapping away to a video on RedTube. All of a
sudden there's this really sharp pain in my dick, like it just
got stabbed with a sewing needle. I jerked my hand back and
it bumped into my computer tower, which sits on the desk. Well,
I had my stick of deodorant on top of the tower, and that
bitch fell off and landed deodorant-end-down on the head
of my cock. Holy fucking chit did that hurt, and on top of that
it hit so hard that it actually forced some deodorant into my
urethra. I've never had anything burn so bad in my entire

urethra. I've never had anything burn so bad in my entire life. I jumped out of my fuking chair and stood up because it hurt so bad; this caused my headphone cable to get yanked out of my speakers, which caused "oh yeah baby. Come deep in my tight teen fussyay. Uh, uh, uh" to get blared through my fuking house and almost maximum volume. Now my eyes are watering from the pain of the deodorant inside my cock, but I manage to punch one of my speakers hard enough so they turn off. I looked down and noticed blood dripping off of my cock; I guess the lip of the plastic deodorant thing bit into my foreskin as it connected with my cock. The blood was dripping down my leg. This all happened in the space of maybe 6 seconds. It may seem bad but it gets worse. Just as I'm standing there trying to figure out what the fuk happened, my bedroom door fuking opens. My dad was standing there with my acceptance letter to Johns Hopkins. I froze and he stared at me, naked with my bloody erection for maybe 15 seconds before he noticed my computer monitor and the brutal anal sex scene going on full-screen. He immediately closed the door and left without saying anything. This may

closed the door and left without saying anything. This may seem embarrassing but my dad is a seriously conservative christian. This happened about 15 minutes ago and he hasn't said anything to me yet. I'm still in my room trying to get the damn fuking old spice out of my cock.

A screenshot from the game Minecraft, taken from a first-person perspective. The player is standing on a wooden platform over water. A large, colorful, abstract shape resembling a lightning bolt or a stylized letter 'Z' is visible in the water. Overlaid on the screen is a white text box containing various game statistics and coordinates.

HPMY: [34] [2000] [console] In 2017, marco was given  
access to the TF control room, this is strictly for the owner  
execs and some developers. However mark felt marco was  
trustworthy enough to have access. Once marco had access,  
the TF offices started having disasters, the power would  
continually go out, resulting in many server outages. The  
refrigerators would go down resulting in milk going to waste.  
Worst of all, marco brushed off these problems as if it  
wasn't his fault. One of the days, scoutix felt enough was  
enough, he threatened marco to step down from developer or  
TF would face the consequences. However this did not  
happen, scoutix attempted to carry out his plan, since he made  
a threat, he was immediately suspended as an admin. His first  
attempt involved attempting to charge through the main  
barrier, which was unfortunately laughable.

A screenshot from a Minecraft game. The background shows a landscape with a large, colorful, pixelated structure in the distance, possibly a player's build or a modded structure. The sky is blue with some clouds. In the foreground, there's a body of water and some land with various blocks. A chat window is overlaid on the left side of the screen, displaying a list of messages from players and administrators. The chat text is in a monospaced font, with some words highlighted in red and green. The player's name, Skeletron211, is visible at the top of the chat list. The chat messages include server status updates, player actions, and administrative commands. The player's health and hunger bars are visible at the bottom of the screen, along with a hotbar containing various items.
